QUALITY CERTIFICATES:

OUR OWN QUALITY CONTROL LABORATORY:

We have our own laboratory where we carry out quality tests on the parts:

- Anti-slip test according to UNE-EN 14527:2006+ A1:2010 standard.
- Corrosion test.
- Salt spray tests on every batch of metallic and plastic parts. 240 hours.
- Periodic wet and dry cycling tests for all parts. 50 cycles, test duration 1 month.
- Annual tests with chemical agents.
- Tests with cleaning products.
- Rubbing test (5000 cycles) to simulate the maintenance and cleaning of the shower tray.
