## Hydrophobic glass cleaner

### Product Description:

Introducing our innovative Glass Cleaner, specially designed to leave shower enclosure glass immaculately clean while providing a long-lasting hydrophobic effect. This product, based on advanced nanotechnology, not only ensures deep cleaning, but also repels water and minimises the build-up of dirt and limescale for an impeccable, fast and long-lasting clean.

### Main benefits:

- **Remaining hydrophobic effect:** Repels water and other liquids, keeping surfaces clean and stain-free.
- **Reduces limescale:** Prevents limescale build up, especially in high humidity areas such as shower enclosures.
- **Makes cleaning easier:** The hydrophobic effect makes it easier to remove dirt and limescale by preventing it from sticking to the glass.
- **Easy to use:** Formulated for easy and safe application, allowing you to keep glass sparkling with minimal effort.
- **Safe for domestic use:** Completely safe for domestic glass cleaning, with no health or environmental risks.

### Instructions:

1. **Preparing:** Shake before use.
2. **Spraying:** Spray evenly onto the glass surface to be cleaned and protected. Estimated coverage: 10 ml/m<sup>2</sup>.
3. **Spreading:** Use a clean, dry cloth to spread the product over the entire surface, removing any existing dirt. If necessary, apply more product and repeat the process for heavily soiled surfaces.
4. **Drying:** Wipe off excess product with a dry cloth until the glass is completely dry and clear.

Recommendation: Apply the product between 5°C and 30°C ambient temperature.

### Frequency of use:

You can apply our Hydrophobic Glass Cleaner to the same surface as many times as you like, ensuring continuous protection and a pristine appearance. With our Glass Cleaner, you'll enjoy spotless, water and stain resistant surfaces with a cleaner that lasts longer.
